PARKING PASSES BEING ISSUED FOR BROWN STREET

Passes for the Brown Street parking area now can be obtained from the Personnel Office. These passes may be applied for through your foreman who will fill out an application and forward it to the Personnel Department for you. The parking permits are to be placed on the rear window of your car.

Having passes will greatly facilitate locating people within the plant if it is necessary to have them move their cars. Often an automobile blocks off other cars or the loading area.

DIAL SYSTEM INSTALLED IN TWO PLANTS

The intricate mechanism pictured above controls the functioning of the dial system.

On Tuesday, July 24, the plugs were pulled out of the switchboard at Marshall Street, and the Marshall and Brown Street plants were automatically on the dial system.

Previous to the installation of the dial system, the switchboard at Marshall Street had been a one-position board. Business on the main operating switchboard at Marshall Street increased so much, however, that one operator could not handle all of the calls. It was necessary to establish a two-position board. In changing to a two-position board, the Company took occasion to install modern equipment and put in the dial system connecting the Marshall and Brown Street plants.

There are numerous tie lines between Brown and Marshall, and Marshall and Beaver, and while at the present the main toll business is handled at the Beaver Street plant, provisions

have been made to transfer it to Marshall Street when the administration building is ready. Night service has been installed in the Marshall Street Gatehouse. It is intended that ultimately Marshall Street will be the headquarters for the main telephone office for the Company.

This dial system requires that those who use it become familiar with the instructions included in the booklet of listings which has been issued. Also, when using the dial system, it is necessary to be accurate in the numbers which you dial. It is believed that as soon as people are familiar with the new installation, it will be a great improvement.

Orders were placed last year by the Company for the new telephone equipment. The receipt and installation of the system took approximately seven months.

Bertha Decoteau and Aileen Mossolani operate the new two-position switchboard which has been installed at Marshall Street.

Hints for a Happy Holiday

Vacations can be a hazard — to health and wealth. Pay-check losses due to sunburn alone total nearly 8,000,000 days each summer. Follow these simple rules, and you'll double your fun while you cut the cost.

1. Take it easy. There's more fun to come — don't crowd everything into the first few days.

2. Disinfect minor cuts and scratches immediately. A first aid kit should be part of your equipment.

3. Avoid the unnecessary sunburn that spoils the fun. Sun filters approved by the American Medical Association guarantee a tan and prevent burning.

4. Use sense about swimming. Wait two hours after heavy meals, never go swimming alone.

5. Look before you leap — especial-

ly in the woods and country. Learn to distinguish the poison oak and ivy leaves.

6. Eat moderately. A watchful eye on Junior's candy-and-cone intake will avoid an upset tummy.

7. Drink only tested water—or else boil it.

8. Exercise with discretion. Seventy-two holes of golf on the first day means seventy-two aches and pains on the second.

9. Give your car the once-over before starting out. Be sure to check tires and brakes.

10. Avoid trouble with the Law. See that Dad has his driving license, his fishing or hunting licenses ready to produce on request.

It's your vacation. Enjoy it — don't spoil it!

KNOW YOUR FOREMAN

Peter Jobin, Foreman of General Maintenance-Construction Gang.

Quiet and soft-spoken, Peter Jobin is the man who makes sure that locations are painted and made ready to be occupied by new departments. Mr. Jobin and his seven men do constructing and painting at Brown, Beaver, and Marshall. Pete's current "hot" job is the painting of the new cafeteria at Marshall Street.

Fifteen of Pete's sixteen years at Sprague Electric have been spent as Foreman of General Maintenance-Construction Gang. On first joining the Company, he spent six months working in the Beaver Street Boiler House before moving on to Maintenance.

A sports enthusiast, Mr. Jobin likes

to fish for trout and go deer hunting up in Rowe, Massachusetts. He finds his time limited for this sort of activity, however.

The Jobin household in Blackinton includes fifteen-year-old daughter, Margaret Ann, and ten-year-old Peter. Mrs. Jobin, the former Emma Moffitt, was employed in the old Mica Department and also in the F. P.'s.

Previous to coming to Sprague Electric, Pete was employed by the U. S. Gypsum Lime Company and, before that, by the Berkshire Mills. He did not learn his vocation until coming here and spending about five years spraying paint. He has been painting ever since.

Electric Maintenance Test
by E. B. Ryan

Pioneers do not belong to the past alone when men like ED LAMPHIER, accompanied by his young daughter, Linda, will make a 48 mile bicycle trip from his home in Williamstown to Schuylerville, New York. Although much time out was spent resting along the roadside, Ed and Linda enjoyed every minute of it and, with the stamina of youth, Linda was eager and willing to make the return trip. Ed reneged, however, and Mrs. Ed came to the rescue with the family chariot. Ed is home a little the worse for wear, but his bike is still in Schuylerville waiting for the day when Ed will again have a "hankering" to cover miles the hard way.

Free advice, cheerfully given has been GEORGE DEGRENIER'S and BILL CHAMPAGNY'S lot since they basked so unwisely in the sun. They have been given more remedies than "Ol' Doc Brady" could use. Wisdom is sometimes a painful lesson to learn but the boys suffered in comparative silence. No more advice and no back slapping, please!

Our flaming youth, DON BRIERLY, has quickly established himself as our sartorial expert and goes Paris style arbiters one better. Don's latest one sock chartreuse, the other shocking pink. Better get up earlier, Don, and start matching your hose, or are you staging a Dagwood Bumstead act for us?

This is a tribute to the most understanding wife of Electric Test's male population. Hats off to BOB BARDSLEY'S wife who daily puts delicious homemade cake in her husband's lunch, knowing that the girls bribe or steal a share from Bob. Thanks a million, Mrs. B., you would rate A in anyone's kitchen.

Our current vacationers are diversified in their choice of holiday spots. ALICE GREEN contentedly worked about her new home. DOUGLAS PIKE visited New York. CHARLIE LINCOLN is traveling by car to spend a week in Baltimore, Maryland with relatives, then by boat down the Chesapeake Bay to Portsmouth, Virginia for a week of deep-sea fishing. He will return home to Stamford by an inland route. Charlie is accompanied by Mrs. Lincoln and their son, Charles. We hope, Charlie, that the reality of your vacation proves as pleasant as the time spent in anticipating it.

Birthday greetings to JOHNNY ALDRICH who will celebrate the festive occasion on August 11. Many happy returns of the day, Johnny.

RECIPES

A hot cheese sauce and crisp bacon make the delicious topping for these toastwiches filled with green pepper rings.

MELTED CHEESE TOASTWICHES

If high food prices are making menu planning more difficult for you, here's a suggestion — make sandwiches for low-cost luncheons and suppers.

They go together without any fuss, and at the same time you'll find enriched breads are just about the most economical food you can buy. Besides, sandwiches of all kinds and shapes and sizes are food all America likes.

Melted cheese toastwiches are sandwiches with an inviting summer look. Use almost any desired filling for the golden toast — such as sliced tomatoes, sliced hard cooked eggs, cooked asparagus, or tuna salad. Pour a melted cheese sauce over the top of the sandwich and garnish with a strip of bacon.

The result is "solid" nourishment. Enriched bread supplies protein, three B-vitamins and food iron. Cheese furnishes protein, calcium and vitamin A, and the vegetables or eggs add other essential food values.

Make the cheese sauce by adding grated cheese to a basic white sauce. Another way is to melt process cheese with a little milk in the top of a double

boiler — proportions are $\frac{1}{2}$ lb. process cheese to $\frac{1}{4}$ cup milk.

Serve melted cheese toastwiches with milk or coffee and stewed prunes or prune whip to complete an easy luncheon. Suggest toastwiches as refreshments for teen-age after-theater snacks that go easy on the family larder.

CHERRY BREAD

$\frac{2\frac{1}{2}}$ cups sifted enriched flour
1 $\frac{1}{2}$ teaspoons salt
2 teaspoons baking powder
 $\frac{1}{2}$ teaspoon soda
 $\frac{1}{2}$ cup shortening
1 cup sugar
1 egg
1 cup chopped cherries
 $\frac{1}{2}$ cup cherry juice or water
1 cup chopped nuts

Sift together flour, salt, baking powder and soda. Cream together shortening and sugar until light and fluffy. Add egg, mixing well. Add cherries. Add flour mixture to creamed mixture alternately with cherry juice or water. Fold in nuts. Bake in greased loaf pan, $4\frac{1}{2}$ x $8\frac{1}{2}$ inches, in moderate oven (375° F.) 1 $\frac{1}{2}$ hours. Makes 1 loaf, $4\frac{1}{2}$ x $8\frac{1}{2}$ inches.

FASHION NEWS

by Joann Deans

Whew! Golly, is it warm...! It is time to stop thinking of and start planning that long-awaited vacation. Whether you are a dude ranch, by train or plane, your wardrobe is all important to you. Once you have decided on your destination, then you can plan the type of wardrobe you will need. And don't think that everything must be brand new. Remember the people you meet will not have seen your clothes before, and you can work your favorites in with the few new clothes you have. Try not to buy the sort of clothes you can never wear again. Buy with the thought in mind that they can be worn the rest of the summer as well as next summer.

Above all, *travel light* — don't bring everything you own. The saddest sight of all is the returning vacationer bent like a beast of burden under the weight of clothes she never unpacked. The basic necessity for any traveler is a suit. This year's surprise sensation is the rayon suit in styles ranging from the simply tailored classic to ultra feminine type. Rayon suits by Handmacher and Sacony can be found in all popular textures with the cool comfort of a lightweight durable fabric. Blouses, scarves, pins and gloves will vary this suit. Don't forget to bring your nylon lingerie, blouses, etc. as they can be rinsed out at night and be dry and ready to wear by morning. Put mild soap flakes in a flat manila envelope and they will be easy to pack in your suitcase.

The ever useful and ever feminine soft rayon sheer print is a treasure to have, especially a sleeveless one with a jacket will serve as both a daytime dress and an evening party dress. The new Bemberg sheers obtainable in most North Adams stores are not only easy to pack but a dream to unpack because the wrinkles will hang out.

Be sure to bring an extra skirt with you. In the stores this summer there are crease-resistant linen skirts, colorful cotton skirts and the popular nylon skirts. If you don't have one left over from last year, buy one and match it

Whether you swim like a duck or just bask on the beach, this outfit made with Simplicity Printed Pattern 3250 will come in handy. It is sized for misses and women, 12 to 20, 40, 25c.

An important summer wardrobe ingredient -- the sheath dress -- Simplicity Printed Pattern 8252. It comes in misses' sizes 12 to 20, 50c.

with your extra blouses — you will have many more changes than you realize.

When it comes to a bathing suit, you no doubt will have your own ideas on what looks best on you and what type you want so why not try your hand at sewing. It will save you many warm hours in the stores trying them on. Whether you swim like a duck or just bask on the beach, the outfit above made with Simplicity Printed Pattern 3250 would be very flattering and smart — sure to be an eye catcher on the beach. It is sized for misses and women 12 to 20, 40, and the pattern costs only 25c.

If you have any room left in your suitcase after you have packed your slacks, shorts, kleenex and other necessities, it would be a good idea to pack an extra dress just in case... This year's so called "sheath dress" is a dress adaptable to any occasion as well as being very flattering to the figure. It is an easy dress to make. The

pattern, Simplicity Printed Pattern 8252, comes in misses sizes 12 to 20 and costs only 50c.

For the finishing touches to your vacation wardrobe, don't forget to bring along a cardigan, preferably in a pastel shade, to wear over your dresses on a chilly night. It is easy to pack and so much easier to carry than a summer coat. Oh, by the way, we don't want to put a damper on your vacation but don't forget to bring a rain coat. We hope you won't need it, but just in case a practical one can be bought in an easy-to-pack case.

Now that you are assembled (make out a check list a week ahead of time when you aren't so excited), remember that if you have too much for one small suitcase you will be better off with two small suitcases you can carry than with one large one you can't lift. Porters are not always on the spot. Don't forget your tickets and do have a wonderful time — and maybe I'll see you there!

SPRAGUE

25th Anniversary

S P O R T S

Little League Baseball

The All-Stars, the pick of the Little League players here in the city, were beaten by the Pittsfield Little League players in regional playoffs. However, the little lads from this area were true sportsmen on the field and only a very unusual triple play deprived these spirited youngsters from tying, and maybe winning, this important ball game. WMNB graciously took airtime to present a play-by-play account of the game. Jimmy Urquhart and Bucky Bullett did their usual grand job of describing this first Little League play-off encounter.

The Kiwanis Team is leading in second-half honors at this time. Some mighty fine games have been witnessed by grand crowds each evening. Johnny Allen, catcher for the Kiwanis, is wielding a big bat with six circuit drives to date.

The Adams League is coming along at a rapid clip and a couple of no-hitters have been registered. Adams also was beaten by a team from Pittsfield in a play-off game.

Again we say the citizens of both the Mother Town and North Adams are to be congratulated on the enthusiasm and backing which they have given to both Little Leagues.

Softball

At this writing, the Corner Cafe softball aggregation has won 26 straight games over opponents throughout the Berkshires. By downing the Adams Merchants, the charges of George "Gook" Benoit have earned the right to defend this area in the State Softball Tournament which will be conducted in Greenfield this year. However, the team voted to forsake the chance for state honors and have sent an entry into the tournament to be conducted in Chicopee. The "Corner" this year has one of the finest teams to be seen locally. We all hope that the coming tourney will be a successful one for this outstanding team. Traditionally, the odds are against them. I say this because in years gone by a team from this area with a fine record has found the going tough when they have faced teams from the other end of the state. Maybe it is the brand of ball displayed but this we do know, outside of pitchers like Winston and Perry, imported from Pittsfield, this area does not boast of a single outstanding pitcher, and a good moundsman can spell the difference between a mediocre club and a great one. Good luck, boys, in your coming tourney.

LATE FLASH—Corner Cafe wins opening contest in tourney, defeating Springfield A & P, 9-1. Tourney conducted at Szot Park, Chicopee, Massachusetts.

Kenny Russell

Joe Roberts of Warehouses caught this lake trout in Cressman, Canada. It is 32 inches long and weighs 12 pounds.

Semi-Pro Baseball

The Blue Haven Nine and the Williamstown Legion continue to play winning ball, although the local nine has tasted defeat three times since last we wrote our column. Defeats were suffered at the hands of the Brass Rail of Pittsfield, the Readsboro Hawks, and most recently the Stockbridge Indians. Incidentally, this latter club has won 17 ball games. In the game with the Blue Haven Nine, they won, 7-5, even though they were out-hit. Five costly errors caused the downfall of the locals, and a belated rally in the last inning just misfired with the tying runs on the base paths. Probably by the time this issue is off the press, the series between the Blue Haven and the Williamstown Legion will be started.

Major Leagues

American League

The New York Yankees are out in front at this time by the narrow margin of one game over the deadlocked Cleveland Indians and Boston Red Sox. The earlier pace-setters, the Chicago White Sox, have begun to fade in this titanic struggle and are now six full games off the pace to wind up the first division. Detroit, Washington, Philadelphia, and St. Louis round out the second division.

Outstanding for the Yankees has been the fine pitching shown by Raschi, Lopat, and Reynolds. For the Indians, the pitching of Bobby Feller, who is having a great season, and the long-ball hitting of Larry Doby and Al Rosen has been outstanding. The Red Sox can thank their present lofty position to Clyde "Clutch" Vollmer, as he has been recently nicknamed, for the truly amazing stickwork of this outfielder has been nothing short of phenomenal. His big bat has won at least a half dozen big games and his circuit drives have been most opportune.

National League

The Brooklyn Dodgers are making a shamble of the Senior Loop as they sport a 10-game league at this date. The second place New York Giants are dog fighting with the Cardinals and Phillies. None of these runner-ups can make any sizable slice into that big Dodger lead.

Gil Hodges of the Dodgers has slackened off in his bid for new home-run honors, but is still leading both leagues with 31 to date.

The Phillies have surged into the contending first division but are some 14 games off the pace.

Can-American League

The Pittsfield Electric has a dandy team this year and deserve much better home support than they are receiving. Many local fans speak highly of this club and the feeling with certain high club officials is that if the patronage does not zoom for the balance of the season, the Shire City will be left without professional baseball when another season rolls along. So, fans, give this fine club the support it needs and keep professional baseball in the Berkshires.

Tennis

With the installation by the city of North Adams of a beautiful tennis court at Noel Field, the local tennis fans will have more of an opportunity to get out and play. This new court has a red clay finish and cost about \$2500.

Silvio Volpi had good luck the day he caught these trout. Silvio is employed in Wire Coating on the night shift.
